

Application Form for the International Market

Kiel Week 2023

From 18 June to 26 June

The "International Market" event area is still the only one of its kind in Germany: around 30 stands represent their respective countries visually, culturally and gastronomically. Entertainment is provided on the city hall stage, located at the centre of the area, during the day by folklore groups and by top international acts in the evening. With over 10,000 visitors a day, the International Market is one of the largest and most popular areas at Kiel Week.
